Heavy Robberies of Money and Freight on the Great R[illegible] Lines Between St. Louis and Galveston.

Telegraph to the News.

ST. LOUIS, Oct. 10.—A despatch from Dallas, Texas, says that heavy robberies of money and freight from the Texas and Pacific, and Houston and Texas Central Railroads, have been detected, and many of the business men of high social standing, including officers, conductors and agents at a number of cities from St. Louis to Galveston, have been implicated. Arrests are expected to be made to-day or to-morrow.

Iowa Election.

DESMOINES, Oct. 10.—The State Register has special dispatches giving pretty nearly complete returns from 51 counties. In these counties the net Republican majority is 9,854. This is a Republican gain of about one thousand over the vote for Governor last year. The Register estimates that the same proportionate vote throughout the State as compared with last year will make the majority in the State about 15,000. In the second Congressional District, Gillette, Greenback Democratic candidate, has 836 majority, with Adair county to hear from, which will reduce his majority to six hundred.

DESMOINES, Oct. 10.—Returns from 54 counties, which cast over one-half of the vote of the State, give the Republicans a majority on the State ticket of 12,200, a gain of 2,380 on the gubernatorial vote of last year. If this ratio continues it will give the Republicans a majority of fully 15,000.

The Republican Congressmen elected are: McCord in the 1st district; Price in the 2nd; Updegroff in the 3rd; Deering in the 4th; Clark in the 5th; Sapp in the 8th; Carpenter in the 9th.

The Greenbackers elected are. Weaver in the 6th district, by about a thousand majority, and Gillette in the 7th, by about 500.

Indiana Election.

By Telegraph to the News.

INDIANAPOLIS, Oct. 10.—Most reliable reports from the ninth District up to 1 o'clock confirms the election of Orth, Republican by a majority of twenty-one.

French Elections.

New York Tribune.

The early date which President MacMahon has appointed for the Senatorial elections is favorable to Republican success. In the brief interval, it will hardly be possible to impair the effect of Gambetta's political tour, which, despite his indiscreet remarks at Romans, has given a strong impulse to the Republican cause, and placed its leader on good terms with the army as well as with conservative peopeople in general. The Republic needs this harmony, for the crisis is very great. The Electoral Colleges, composed for the most part of municipal councillors, have it in their power next January to place Republican institutions on a firm basis, by exercising due discretion in selecting the seventy-five Senators who, with the 225 already chosen, will form the Upper Chamber of the French Legislature. If they elect staunch, earnest Republicans the national party will begin the year with full control of the Legislature, and it will be in a position to await confidently the Presidential contest of 1880.

The Eddystone Lighthouse, famous the world over as a beacon to mariners, has withstood one of the most awful storms in years. It cannot be reached, on account of the raging sea, which throws its spray high over its lantern.

The London stock and money markets are uneasy, in consequence of reports of further mercantile embarrassment.

The newspaper accounts of Edison recent discoveries as to the use of electricity as a light for cities have depressed gas stocks in Great Britain.

Subscriptions to the Southern Relief Committee of the Chamber of Commerce yesterday, amounted to over eleven hundred dollars, of which five hundred were from citizens of Montreal.

Atlanta, Ga., has sent three physicians, fifty beds and large contributions to Chattanooga. Drs. Lee, Knott and Olmstead volunteered to go. Atlanta will equip and maintain a hospital in Chattanooga until the fever is passed.

A Decatur, Illinois, despatch says that Charles Everman and a neighbor, [illegible] cutting corn in a field, had an altercation, when Everman struck the neighbor three blows on the neck with a corn cutter, severing his head from his body.

The request of the Collector of Internal Revenue at Little Rock Ark., for troops to assist in destroying illicit distilleries will be considered by the cabinet to-morrow. The War Department officials express the opinion that to furnish the aid asked for would be a violation of the posse comitatus clause in the recent army appropriation.

Methodist Revival---Address by Dr. Burkhead.

ROCKY POINT, N. C., Oct. 9.

An interesting revival of religion is in progress at this place, and is being conducted in the Methodist Church, under the direction of Rev. J. B. Bailey, the efficient Methodist Minister in charge of this circuit of the Methodist Church. He is aided by the Rev. Mr. Hall, a Methodist Minister stationed in Wilmington. Much good is being done, and from the interest manifested and the crowd in attendance upon the daily and nightly meetings it is believed that the church will be increased in membership and the interest of religion materially advanced.

At the meeting to-day Rev. L. S. Burkhead, Presiding Elder of the Wilmington District, delivered by special request, a most interesting, able and eloquent address on Methodism, its rise, progress, doctrines, and influence upon society and civilization. It was a masterly effort and by a master mind in the cause of religion.

I am not a member of the Methodist Church, but this is no reason why it should not be said that in learning, and logic, in power of analysis and force of argument, in fervor of piety and genuine eloquence, this very able and very instructive address has been rarely equalled and seldom surpassed in North Carolina as a pulpit production. The reverend gentleman is well entitled to the reputation he has achieved of being one of those learned, invincible and sledge-hammer ministers of the gospel who wield immense power and indelibly impress themselves upon the times in which they live. I say this deliberately and in simple justice to a gentleman who goes to the bottom of things—possesses great courage and true independence, and is doing great good. I know him well and have heard him often, and always with pleasure and profit. Had he chosen the legal profession, or political life, he would have been a first-class lawyer or a leading statesman, as he has the mind and will and energy that seldom fail to place their possessor in the front ranks.

Oxford Items.

Correspondence of the News.

OXFORD, Oct. 8.

The Inferior Court is in session here. No cases before the Court of sufficient importance to be particularized for the News.

Hon. Josiah Turner spoke here on Monday and to-day. His speeches were listlessly received.

Our gallant standard-bearer spoke at Henderson to-day and at Oxford to-night. He has just concluded an able and impressive speech, which was frequently applauded and produced a fine impression.

Hon. J. J. Davis is a faithful representative in Congress and a noble specimen of a first-class gentleman in every sense of the word.

The farmers of Granville, as a general rule, have succeeded quite well thus far in curing their tobacco, though the quantity of the best grades has been materially diminished by the ravages of the hail-storm which recently did such destructive work in the southern part of the county, where the lands are peculiarly adopted for raising the finest tobacco made in the universe.

What Ails the English Cotton Manufacture.

A banker does not lend money on nothing but land; a wise land-owner does not employ every farthing of surplus from his rental in buying fresh estates. But Lancashire had one idea; it was that the sole thing needful was to use all its resources for the single end of manufacturing, not better cotton, but more cottton. All the skill was absorbed in the endeavor to improve, not the product, but the producing machinery. China-clay has year by year made Lancashire cotton less, instead of more desirable. The energy and money would not have been all thrown away had they been used for turning out work more beautiful in itself, or better adapted to the requirements of the market; but nothing of the kind appears to have suggested itself to the manufacturers. We are speaking of the general rule. There are individual exceptions to the rule, but manufactures as a class turned their eyes exclusively upon the productive powers of their machinery. None were so naively surprised as many of themselves to learn that the prostration of some scores of millions in Asia with famine could have anything to do with them, so long as Preston had as powerful mills as Rochdale as Blackburn.—London Spectator.

Restoring Israel.

The Kladderadatsch, of Berlin, commenting upon the recent suggestion of Herr Istoczy in the Hungarian parliament, that the Jews should all leave Europe and re-establish the Jewish nation in Palestine, proposes Baron Rothschild for king of Judah, with a cabinet composed as follows: Minister of the interior, M. Gambetta; minister of public instruction, M. Cremieux; minister of justice, Herr Lasker; minister of finance, Herr von Bleichroeder; minister of foreign affairs and commerce, earl of Beaconsfield. The Kladderadatsch adds that the Jews of Europe should return to Palestine by way of the Suez canal and the Red Sea; that all the powers who have deposited their money in the bank of England should receive the decoration of the golden calf; that a stock exchange should be established in Jerusalem, and that his majesty Rothschild I., king of Judah, should proclaim the unconditional, civil and political emacipation of the Christians.

Hits Hayes.

The Philadelphia Times has the following pleasant paragraph concerning Mr. Hayes:

"If President Hayes does not get well acquainted with the people of the United States it will not be his fault. He is taking in the whole country by degrees, indeed, the most of it was taken in by him before he had been a year in office."

EVERYBODY RICH AGAIN.

The Extraordinary Rise in Stocks Putting Californians on their Feet.

Philadelphia Times.

The whole Pacific slope is crazed over the recent picking up of the stock market. Speculators have waited for years for a market, and a large number of them were what is known as dead broke. Stocks continued to decline, dividends stopped, assessments began and the failures among the heavy operators were countless. A few of the richest weathered the storm, but everybody felt depressed and apprehensive. The tremendous rise in the Sierra Nevada, the Utah, the Justice, Union Consolidated and some of the other Nevada stocks has sent everything a-booming in San Francisco again and such wild scenes have not occurred there for many years. Everybody is rich again. Some marvelous stories are told. One man who had been very rich met with reverses and became very poor during the past six months. His house, his furniture, his credit, everything was gone and he was, as usual in such cases, avoided by everybody. When the gigantic rise in Sierra Nevada occurred, he happened to think that he had given his wife a thousand shares of that stock when it was only worth a dollar a share, and he never supposed it would be worth more. He hunted up the despised stock, sold it for $300 a share and pocketed $300,000.

AMERICA'S SUCCESS.

How Our Country Stands in the Paris Exposition.

Washington Post.

The Department of State has received a dispatch from the United States Minister at Paris, concerning the Exposition, now drawing to a close. The minister says that the Exposition has been eminently successful—in many respects the greatest that has ever been held—and reflects the highest credit on the French Republic for being able, in the presence of so much general depression, to make so magnificent a display. The minister says that we have just reason to feel proud of the American exhibit, although it was not as large as it should have been, and doubtless would have been, had the invitation of the French Government been sooner accepted, and had the Congressional appropriation been more liberal. As it is, the United States will bear off more prizes, according to the number of exhibitors, than any other country. We will take seven or eight grand prizes, and a very large number of gold, silver, and bronze medals. The minister pays the highest compliment to the manner in which Commissioner McCormick has conducted the affairs of the American department. He has united rare good judgment, efficiency, and economy to the most pleasing manners, and has won for our exhibit the highest commendations from all classes and nationalities. He has also been most happy in the selection of his assistants, who have most zealously and ably assisted him in all his efforts to worthily represent our country.

The English in India.

Washington Post.

Among the evidences that a feeling of insecurity touching their tenure of power in India is creeping over our English cousins, is the fact that they have lately begun to discuss the propriety of disarming the feudatory princes, and allowing no native forces to exist in the Hindoo peninsula except those officered by Englishmen, and paid by the British government at Calcutta. At present the British force in India consist of 66,000 European troops, nine regiments of cavalry, fifty-five battalions of infantry, and fifty or sixty batteries of field artillery—together with about 200,000 native troops or Sepoys, under English regimental officers. These troops suffice to garrison the whole of British India, to preserve order at home, and to guarantee immunity from invasion. But interspersed through the British dominions, and surrounded by them on all sides, are a number of small states, governed by princelings whose political relations to Great Britain do not differ from those of the petty German princes to the Federal Empire. These princes are under British suzerainty or protection, but every one of them has an army of his own, and the aggregate force of all the feudatories is numerically superior to the Anglo-Indian army.

An Extinct Race.

Philadelphia Times.

At the decoration of the graves of the Union soldiers in the National Cemetery at Gettysburg, General B. F. Butler delivered an address on "The private soldier of the war of the rebellion." It was a touching theme. There is always a wonderful pathos in the speech or play or story founded on a life that has ceased to exist.

The "private soldier in the war of the rebellion." He is dead. Or lost. Strayed or stolen, possibly. We do not know where he is, but he is not here. He has gone away to some place. Perhaps he has ceased to be necessary. haps if he were here he would be in the way. At any rate he is not aroond. He does not go to the Legislature. We do not find him in Congress. He is not eagerly sought as a candidate for anything. Nobody seems to know anything about him. Occasionally he appears at the pension list, with one leg, a wife and seven children, and $8 a month. If flour takes much of a rise he will not last much longer at this rate, and we will soon be derived even of the occasional glimpse we have of him.

It is asserted, and quite generally believed, that at one time he was quite numerous, and was even considered rather convenient, if not, indeed, quite indespensable. It was found that upwards 100 of him were necessary in order to secure mere line commissions for three eminent and deserving men. When field commissions were wanted for three even more eminent and great men, upward of 1,000 private soldiers were necessary. One thousand! It seems an enormous number now, when by consulting the Congressional dictionary we find there are none in all this proud republic. But 12 or 15 years ago, even that, incredible as it may appear to us to-day, was considered a small number. There were private soldiers and private soldiers. There were even hundreds of thousands of them.

And they were useful. They dug trenches; they constructed long lines of breastworks, and then, when any enemy came within sight, they climbed over them and went outside of them to fight. They worked and watched and fought. Co-operating with great and eminent men who have since passed to their rewards in one office and another, these private soldiers sometimes rendered very useful service in winning great battles. Oh, they were useful. Some historians have even gone so far as to maintain that without them the war could hardly have been carried to a successful termination. They were rally quite useful.

And now they are all gone. It seems sad, looking back at the war, that none but the Generals and Colonels and Majors and line officers should have survived its dreadful ravages. Providence, ever mindful of the wants of a great and growing nation, undoubtedly took special care of these great men, and in its great anxiety that the country should not suffer from a lack of eminent men, kind of forgot the private soldiers and let them wander away. And so they are all gone. Some of them got shot, some of them died. Some of them got married and moved out of the world, to settle upon tracts of Government land, where the Indians could get at them more easily. Some of them went into business. Some of them are teaching school. Some of them are driving drays. Some of them went away, and didn't leave their present address. But all the same they are all gone, and it seems dreadfully lonesome without them. There used to be so many of them.—

NOTES.

Speaker Randall is booked for a talk at Cumberland, Maryland, on the 16th inst.

Postmaster General Key and party arrived in San Francisco Monday evening from Portland, Oregon.

Captain Charles H. E. Judkins, formerly "Commodore" of the Cunard fleet of steamships, died in London on Monday night.

Hayes and Henry Ward Beecher will both attend the Cumberland fair. The Brooklyn eight by seven man will deliver the annual address on the 22nd inst.

Forty-one ministers have died of yellow fever, of whom eighteen were Catholic priests.

Ole Bull has arrived and will immediately start out on his seventh attempt to make the country a long and last farewell.

John B. Gough has arrived in London and will immediately begin a course of lectures in Mr. Spurgeon's tabernacle.

Theologically Bob Ingersoll is "soft." Financially he is "hard;" and yet the general belief is that he is irredeemable.

The illness of Senator Thurman has assumed a type of bilious fever so severe as to occasion anxiety regarding his prospects of recovery.

The Roman Catholic sisterhood of mercy at Memphis originally consisted of seven members. The last one of them died on Thursday of yellow fever.

Beecher declares that human nature is not so low as the popular estimate of it. Did it ever occur to him that he is in no small degree responsible for that estimate?

"I have seven crores" (seventy millions) "of rupees by me, every rupee of which I will hurl at the head of the British government, and I will roll the border tribes against them like blasts of fire." These are the words which Shere Ali is reported to have uttered in public at Durbar.

Among the important cases to come before the United States Supreme Court during the October term, is that involving the validity of the legislation of Congress on the question of polygamy and the constitutional authority of Congress to interfere with the practices of the Mormon religion.

The Cabinet at Washington, on Tuesday, discussed the subject of finances, as connected with the government's receipts and expenditures. It was agreed that the estimates for the next fiscal year should be at the lowest practicable figures, in consequence of the falling off in the revenue.

Asia and Europe Swapping Fashions.

His Majesty the Mikado having decreed that all his subjects holding official situations shall dress like Europeans, they and their wives, the Japanese milliners, who had not seen fashion in charge for a thousand years, have consigned to Paris the thousands and thousands of native dresses which they had in stock, and Parisian ladies are now wearing them as dressing-gowns. They are said to be very becoming, and the bright dyes in them—a secret we ought to learn—will stand any amount of washing. Chinese silken skirts, so fine that you can pass them through a wedding-ring, are also being sold in quantities; but the attempt to introduce Chinese peaked straw hats into fashion has failed hitherto. There is no saying, however, what may happen next year, as an exhibitor from the Great Moon empire has imported 30,000 of these monstrosities, and there is no limit to the audacity of women in Paris.

Assassination a Fine Art.

Infernal Machines have been employed of late with fatal effect in several cities and towns of Mexico. At San Angel, a little town five or six miles from the capital of the country, a party of six ladies and three gentlemen assembled to open a box assuming to have come from Southern France, and to contain Lourdes water and a number of rosaries that had been blessed by the pope. One box opened, another was disclosed, and, as they were trying to get into the second, a tremendous explosion took place, and every person but one was instantly killed. The box contained nitro-glycerine, and was evidently prepared for assassination, though why any of the party mentioned should have incurred any such deadly enmity it is impossible to tell. The terrible box, it is said, was sent to one of the ladies, remarkable for her amiability and benevolence. She was unmarried, and a great favorite, and it is surmissed that a semi-adventurer who had proposed to her and been rejected had adopted this method of revenge. Such a thing scarcely seems credible to us; but in Mexico anything criminal may happen, without provocation. There are men there who appear to practice assassination lest they may grow rusty in their murderous art. The Californians have a proverb that a mongrel Mexican is half-brother to the devil.

State Fair Items.

Yesterday was a busy day with the officers of the Fair. Through the courtesy of Maj. Winder a train of cars loaded with donations for the Fair, went out to the grounds, and Dr. McCallum was occupied in arranging their reception, unpacking, &c.

Captain Wm. H. Thompson is again in Donation Hall, in the capacity in which he served last year. When one observes the variety and great value of the numerous articles that thus find a way to our people, many of which are as novel as useful, and all foreshadowing the march of improvement in the arts and comforts of life, we begin to realize something of the work performed by the North Carolina Agricultural Society for the welfare of the people.

The live stock donated is now arriving rapidly. The finest boar, (Berkshire Herd Book), went out yesterday. It is to be regretted that the stock pens as so far away, and it is in contemplation to make some changes in that regard. Mr. Chamberlaine's pure Siberian Merino buck arrived day before yesterday.

The stock farmers of many of the most celebrated breeding in the Union, are represented, and every animal is to be given away as a premium among our progressive farmers. Rochester, Morrisania, Beacon Hill, Lancaster (or Brickerville), Annapolis, Fredericksburg, Red Hook, Suffolk, and various others send their choicest animals. He must be obtuse indeed, who does not see the great advantage, not only to a single exhibition, but to the whole community in which he lives, of the donation system of premiums. Facts like these, too, are elegant arguments to the farmer, who is fair enough to consider that the Fair was not made for one class only, but that the Executive Committee and officers must consider the rights and needs of all, and from many points of view unknown save to the parties concerned.

At the Secretary's office, entries are coming briskly in, and heavy masses of correspondence. Tickets, &c., of all kinds are in readiness to accommodate the public, and as many of our city friends as can conveniently do so, are invited to send in their entries to-day.

The horses are coming in well for the races, and there will be something worth looking at in that line.

Space in General Exhibition Hall is nearly all taken, and likewise in Machinery Hall. We are especially gratified to observe so many entries from distant parts of the country, and many exhibits will have representatives in charge. We will endeavor to notice some of these hereafter.

The Secretary requests that editors who have failed to receive complimentary tickets by any inadvertance or miscarriage of mail, will notify him by postal card at once, as it is desired to show the entire press the courtesy which justly is due.

WAS IT MURDER?

The Remains of a Negro Found on the N. C. R. R.

Yesterday morning the remains of a negro man were found on the track of the N. C. R. R., near University Station. The upper portion of the body was so horribly mutilated as to prevent recognition. The wheels of the engine and the cars had crushed away all semblance of humanity. As soon as possible a Coroner was sent for, who summoned a jury and sat on the case. There was but little blood on the track at the place, and this, the railroad officials think, will prove that the man had been murdered and the body laid on the track, so that it might be thought the train had killed him. They suppose that some persons in that section of the country had, after taking his life, brought the corpse there. An air of mystery seems to enfold the affair. It may be that the work of death was done by the cars. To-day's results will probably show.

The Wilmington Sun.

Under the above name a daily Democratic newspaper of twenty-eight wide columns will be issued in the city of Wilmington, North Carolina, on or about Oct. 17. The Sun will be published by the Sun Association, from the printing house of Messrs. Jackson & Bell. It will be printed in first-class style, on good paper, with new type, and will be the handsomest daily journal ever published in this state. The Sun will be edited by Mr. Cicero W. Harris. The city editorship and the business management will be in competent hands, and a correspondent and representative will travel throughout the State.

The Fast River Bridge.

N. Y. Sun.

The last wire of the last cable of the East River bridge was run over Saturday afternoon, and the completion of this part of the work was greeted with the flinging out of flags and loud cheers by the workingmen on the anchorages. Six million eight hundred pounds of wire now hang between the towers and the anchorages, and about twenty-four thousand wires are bound up in the seventy-six strands that form the four great cables. The estimate of Engineer Roebling was that it would take no less than two and a half or three years to make the main cables, but the workmen have been so expert that the whole process of cable making has not lasted two years. The cables are made about five or six feet above the position they will occupy after all the setling has taken place.

A Project to Capture the Marquis of Lorne.

N. Y. Star.

A startling rumor is prevalent here in certain quarters, to the effect that the Irish Nationalists are planing to kidnap the Marquis of Lorne and his wife, Queen Victoria's daughter, the Princes Louise. It is affirmed in certain circles that a deep and well-concerted plot to effect his capture was concocted. In this act of reprisal the skirmishing fund, which now amounts to £15,000 or thereabouts, raised at the suggestion of O'Donovan Rossa some three years ago, is to be utilized. It is also stated that the two cruisers are being fitted out in a port between New York and Martha's Vineyard in a similar style to the privateer, Erin's Hope, commanded by Col. Kavanagh, not the militiaman of your city, but a distinguished officer, who served under Admiral Porter during the civil war.

Pathetic.

There are bits of rare pathos in the Memphis newspapers nowadays. A lady going to see a sick friend heard her name called. Turning, she saw a slender girl in mourning advancing toward her. As the child came nearer the lady recognized in her the daughter of a neighbor who had died the day before near the city. The little girl threw her arms about the lady and, sobbing, cried:

"You arn't afraid of me, are you?"

"No, my dear," was the sobbing reply.

"Everybody else is," said the poor child." "They won't come near me because papa died of the fever, and we were with him, I and mamma."

Sale and Board Stable.

Having this day sold our Livery and Omnibus line to O'Kelley & Baker, we will give our personal attention to the sale of horses and mules, and will keep a first class boarding stable. Our stables will be open day and night, and especial attention given to transcient and monthly bosrders!

Thankful for the patronage so liberally bestowed heretofore, we trust by strict attention, to merit a continuance of the same in our sale and boarding stables.

Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Coschee's German Syrup. ELECTION—TUESDAY, NOVEMBER 5TH

Governor Vance and Judge Merrimon.

The summer is ended and autumn already begins to shade into winter. Soon the Legislature will be upon us and with it will come up for decision the most momentous question which the Democratic party has had to resolve for many years. It is nothing less than the vindication of party discipline and the preservation in its integrity of that splendid organization which redeemed the government of North Carolina from the possession of rogues and thieves carpet baggers and scalawags and consecrating it afresh to honesty placed the helm of State in the hands of capability and intelligence.

The record of the Democratic party in North Carolina is a proud one. Commencing in 1868 when bound, hand and foot, the State was handed over by military power to the cormorants that were ravenous to plunder her, our grand old party lost not hope. But re, deeing here a township and there a county it grew, till 1870 the bonds burst and the Legislative Department of the State was ours, next we secured the Executive and in post the summer we drove the enemy from their last stronghold and the Judicial Department was put in accord with its fellows.

All this we have accomplished for the public good by organization.

The organization and discipline of a party is as necessary to its success as to an army. In war he who deserts to the enemy is shot. In politics, he who succeeds by the ballots of the enemy and in opposition to the ballots of his party friends, has no claim upon the votes of the party whose choice he has baffled and whose nominee he has defeated.

For Judge Merrimon we have no feelings other than kindness. It is not the sinner that we hate, but the sin. It is but natural that he should wish to return to the Senate. But in 1872 he defied the wishes of the Democratic party expressed according to party rules. He and his friends have no right to expect that the Democratic party shall regard his wishes in 1878.

It is strange to us that it can even be thought possible that after the slap in the face thus given before the whole world to a great party, it will turn the other cheek also. If Judge Merrimon had returned to the discipline of his party and agreed to abide the choice of the caucus his candidature would be less remarkable. He has been asked in these columns more than once if he would abide the choice of the caucus. No reply has been made. Under such circumstances and in the light of his past defiance of the will of the party the canvass his friends are so actively making for him seems to us a wonderful thing in politics and in—*cheek*.

We respect highly Judge Merrimon's talents. We respect his personal character. We deal only with his political actions. The party would doubtless forgive the moment of ambition which tempted him into a grave breach of party discipline if even now Judge Merrimon will express his determination to obey the expressed will of that party upon the success of which the future of North Carolina is so greatly dependent.

But this he has not done. Till he does it, we do not see how any Democratic paper can tolerate his claims. The NEWS has always been outspoken on this subject. It has no respect for a *wishy-washy* course on any subject—least of all on this. It believes Democratic success a necessity to North Carolina and organization absolutely necessary to Democratic success.

If the generals are allowed to abandon their colors and after receiving rewards from the hands of the enemy are to be allowed to again place themselves selves at the head of our columns and that without a renewal of allegiance, what are to become of the rank and file. Josiah Turner is seeking to go to Congress by Radical votes aided by a few Democrats and against the expressed wish of the Democratic party. Judge Merrimon is now in the U. S. Senate by Radical votes aided by a few Democrats and against the wish of the Democratic party expressed for another. Turner is poor, broken in influence and fortune. Judge Merrimon is rich, influential and with rich and influential friends to support him. Does that alter the rule? Would not his re-election therefore even more jeopardize the organization of that party on whose *unbroken* front will rest success not only here in 1880, but possibly in the Presidential campaign of that year.

Gov. Vance was the choice of the Democratic party in 1872 for the seat Judge Merrimon now fills. He is unquestionably the choice of a vast majority of that party still. The information which we receive from all sides, point unmistakably to his triumphant election. But if Judge Merrimon's friends differ with us as to this we do trust they will be patriotic enough to submit the question to the decision of the party caucus and by now announcing their intention to do so, put an end to a state of uncertainty, which is only damaging to the distinguished gentlemen whose fortunes they seek to advance.

The State Fair.

The State Fair next week will probably be more largely attended than any of its predecessors. The display of military and the expected presence of Judge Thurman will add greatly to the attractiveness of this annual re-union of our people, who, on these occasions, come together from all parts of the State. Too much credit cannot be given to the popular and enterprising President of the Society, Col. Thomas M. Holt, and to his hard-working and self-sacrificing Executive Committee. We do not believe in praising public officials who merely do their duty. They are paid to do it. But the President and Executive Committee of the State Fair have worked laboriously and unceasingly for the public good without one cent of pay. They have done this, not this year only, but for many years. They can have no reward but in the public approbation and as one of the mouth-pieces of that public we unhesitatingly declare in old Roman phrase, that "they have deserved well of the republic."

O'Hara.

Verily, the colored man and brother has a hard time of it in getting office at the hands of his white Republican allies in North Carolina. O'Hara, it will be remembered by our readers, was nominated by the Republicans as Elector for the 2nd District in 1876, but before the election he was forced off the ticket. This year he secured the nomination for Congress in the same District but again has had his heels tripped up and a white man is to have the place. Do the colored people see no significance in these facts?

THE fourth annual meeting of the Newbern District Sunday School Conference, M. E. Church, South, will be held at Mt. Olive next week, commencing Friday, October 18th, and will continue for three days, concluding with appropriate religious exercises on Sunday. W. F. Kornegay, Esq., of Goldsboro, is president. The railroads have kindly consented to pass delegates and visitors to and from Mt. Olive at three cents per mile, and the citizens of Mt. Olive are making preparations for the accommodation of all who may attend. Rev. E. A. Yates and other distinguished ministers will be present, and addresses are expected from Col. Walter Clark, of Raleigh, Mr. W. C. [illegible], of Green Hill and others.

The Eastern Baptist Association met in the First Baptist Church, New Berne, on Tuesday last and is now in session. Rev. J. L. Steuart, Moderator presiding, and over one hundred ministers and delegates in attendance. Rev. Dr. Wingate, President of Wake Forest College, preached the Missionary sermon on Wednesday evening to a large congregation. Among the members present are the Rev. C. T. Bailey, editor of the Biblical Recorder, Rev. G. S. Jones, Sunday School Agent, and Prof. F. P. Hobgood, of this city.

COL. A. K. MCCLURE, editor of the Philadelphia Times, says, with the election of Tuesday perished the last hope of the Republicans to reverse the Democratic control of the next Congress. With a net loss of four and probably six members in Ohio and Indiana, added to the loss of one in Oregan, one in Vermont and two in Maine, with the single gain of one in Colorado to offset the account, Democratic supremacy in both the Senate and House seems to be assured on the fourth of March next.

A Valuable Criticism on Modern Dress.

New New Graphic.

Alma Tadema says: I do not agree with you that nature is harmonious and truthful. Nature seems to me rather to follow the principle of surprises and compensations; handsomely shaped models nearly always have ugly, or if not ugly, ignoble, commonplace, vulgar faces, such as could not be introduced into any composition of an elevated kind; and pretty girls are often ill-shaped, and still oftener deformed by compressing their forms to suit the exigencies of modern dress. This is a perfectly natural sequence of the conditions of costume. A beautifully-formed woman shows to poor advantage in modern drapery. She appears to eyes trained to admire a purely artificial outline, thick waisted and straight up and down. The reason is not remote. Modern costume is made not to reveal beauty but to conceal defects. The waist or cincture is far too low and divides the body into two parts, hideously and artificially, besides weakening the muscles on which a beautiful waist depends by supporting them, instead of letting them support themselves." The artist Tadema will be seconded by every connoisseur of corresponding effects. Even harmony in ugliness is more pleasing than jumbled beauty.

Geo. Francis Train on Yellow Fever.

Mr. Train sent a postal-card to Memphis to say: "The fever is born of panic, based on gormandizing diseased animal food—fish, eggs, butter. Meat is the delirium tremens of flesh. All your remedies only make matters worse. Stop alcohol, tobacco, brandy, quinine, drugs. But above all, keep in the open air. Abolish hearses, funerals and the graveyard horrors; they spread the pestilence. Commence at once cremating the dead. The disease is mental. 'Tis the Asiatic plagne, or consolidation of all the disease through mental action or fear of death. Memphis knows me. If you have faith I will stop the pestilence. Telegraph and I will come by express. Mayor and citizens' committee must sign the dispatch. My guarantee of good faith is that you will see me moving among the dying and dead."

A Health-Destroying Vapor

Is generated by the action of the suns rays upon damp decaying vegetation, stagnant pools, and marshy, low lying tract's The true nature of this miasma is by no means clearly understood, but there are two facts in relation to it that are. The first is, that the periodical fevers which it breeds are of the most virulent type; the second is, that these maladies are rarely cured, although they may be ameliorated, by the ordinary remedies employed to overcome them. The true antidote to the effects of miasma is Hostetter's Stomach Bitters. This medicine is one of the most popular remedies of an age of successful proprietary specifics, and is in immense demand wherever on this Continent fever and ague exists. A wine glassful three times a day is the best possible preparative for encountering a malarious atmosphere, regulating the liver, and invigorating the stomach.

VEGETINE.

FOR
EPILEPSY.

BARABOO, May 15, 1877

H. R. STEVENS:
Dear Sir,—My husband has had Epilepsy for the past fifteen years. The past winter his blood seemed to be in a bad condition, and seeing the good results from the use of Vegetine in others, felt anxious to try it. Has taken some six bottles, and the result has been, that he has had only ten fits in three months past; whereas, he was accustomed to having as many in two days at his worst, an effect that he did not expect. Am very anxious to have him continue the use some longer, and write you what terms, or what reduction you would make and send me one dozen bottles.

Very respectfully,
MRS. A. C. COLE,
Baraboo, Sauk Co., Wis.

Vegetine thoroughly eradicates every kind of humor, and restores the entire system to a healthy condition.

Vegetine.

ST. VINCENT SCHOOL, TROY, N.
Oct. 5, 1871.

DR STEVENS:
Dear Sir,—We are truly grateful for your generous donation of Vegetine received last evening. A lady has been using it here, with much benefit to herself, who, for years, has been pronounced "broken down," "worn out," &c. Frequently she was disturbed in her sleep by a violent nervous twitching of a fold of the face, or the whole body. By taking this Vegetine, she is enabled to sleep quietly, and her general health seems much improved, though she has a complication of chronic diseases to contend with. May God bless you for your charity to the orphans.

Respectfully and gratefully,
SISTERS OF CHARITY.

Harassing Dreams—An unnatural excitement of the brain and nervous system is the direct cause of sleeplessness, as also of harassing nocturnal dreams. Vegetine has a peculiarly soothing effect in all such cases, when taken just before going to bed

For all Ladies
WHO ARE SUFFERERS.

CINCINNATI, March 28, 1877.

MR. STEVENS:—
Dear Sir.—I have taken several bottles of your Vegetine for Female Weakness, and in justice to the medicine, and to all ladies who are sufferers from such complaints, I will recommend the Vegetine. I must say it has helped me very much: indeed, it is invaluable for such complaints

MARY E MEREDITH,
160 Eastern Avenue.

FEMALE WEAKNESS—Vegetine acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflamation, cleanses and cures ulceration, cures constipation, regulates the bowels; headache and pains in the back cease; in fact, there is no disease or complaint where the Vegetine gives so quick relief, and is so effective in its cure, as in what is termed Female Weakness. It has never failed in one instance.

HOME REMEDY.

THE MOST WONDERFUL DISCOVERY OF THE AGE!

A CERTAIN AND SPEEDY
CURE FOR SCROFULA.

FACTS ARE STUBBORN THINGS!

"It will Cure You if You Give it a Fair Test."

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After I returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spiritedness fled before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully,
JAMES A. MORRIS.

The Albnio family, with a large collection of birds, animals and snakes, also many other living curiosities that you should not fail to see. A more attractive Fair has never been held.

Prof. Kerr.

Prof. Kerr, State Geologist, has returned from an interesting tour in the extreme western part of the State. Besides investigating the mineral treasures of that region, he made an examination of the traces and phenomena of the water-spouts, ten or twelve of which have struck in Macon county, carrying much devastation. We learn that an article on the subject from his facile pen will appear in the next number of the Farmer and Mechanic.

Mr. S. W. Whiting.

Announcement is made of the firm connection of this exemplary young gentleman with Mr. R. B Andrews, the old reliable clothier of this city. Mr. Whiting is a gentleman of long experience in his business, having been a clerk with R. B. Andrews & Co., for 10 or more years. He has made an enviable reputation for honor and integrity in all his dealings with his fellow-man, and now stands among the leading business men of the city. Mr. R. B. Andrews takes a valuable partner in his business.

Jewish Festivals.

This is now the season of festivals with the Hebrew people. In the past two weeks have occurred Rosh Hashana and Yom Kippur, and now Succoth, or the "Feast of Tabernacles" commences on Saturday and continues for seven days. It is a feast of rejoicing in celebration of the harvest in-gathering. It is in commemoration of the booths in which the Israelites dwelt after their exodus from Egypt. The first two days are considered sacred, and are called "Mikru Kodesh," or "Holy Convocations." After service each evening the Hebrews assemble in their respective houses and march into the yard, where a rude structure of wood is constructed resembling an arbor, drink wine, sing, and be merry. This is only customary among the orthodox. "Hoshanna-Rabba," the seventh day of the "Feast of Tabernacles," is observed in a solemn manner. Prayers are invoked that the following year may not be one of drought.

The eighth day of the "Feast of Tabernacles," or "Branches," is called "Shemeny Ahzeras," or a "day of solemn assembly." It is also called the "Rejoicing of the Law," because it is a solemnity in memory of the termination of the reading of the law. On this day the last section of the Pentateuch is read, and the first section immediately commenced. The following Sabbath is termed "Shabbath Bereshith." This being the last of the holidays, great enjoyment is manifested in all the synagogues. While one of the congregation is carrying the scrolls of the law around the Rabbi begins to sing a psalm, which is heartily joined in by the rest of the company. Suddenly a shower of peas and nuts greets him, which is the sign of a general storm of merriment. This concludes with a grand feast.

The Sunday School Convention.

This body will convene in the city of Raleigh on Friday, Saturday and Sunday, the 1st, 2nd and 3rd days of November next. It will be composed of representatives from all the Evangelical denominations in the State. These representatives are to be duly appointed by their respective Sunday Schools—each School of whatever denomination being entitled to *one* representative, and *only one*. These delegates are to be entertained by the different Sunday Schools of the city free of charge. Reduced rates on the different Railroads of the State will be obtained if possible.

The object of the Convention will be to organize the Sunday School work in the State, and devise means for the advancement and prosperity of the cause, and to co operate with the International Sunday School Convention.

It is greatly desired that every Sunday School in the State be represented, as we wish a full and thorough organization. Schools are requested to appoint their representatives *at once* and forward us their names, so that there may be no delay in assigning homes.

Persons wishing to attend the Baptist State Convention, which convenes in Charlotte, on the 6th of November, can go directly on without any delay.

Now don't forget that we want *one* representative from every Sunday School of each Evangelical denomination in the State, and wish their names sent us *immediately*.

The fair bride wore a handsome traveling costume of navy blue, trimmed with dark and light blue trimmings. Cordial thanks to our Cumberland friends for this admirable gift, which came in yesterday, and may they reap the reward of the liberal man. As we approach the end of the long line of donors through many sections of the Union, and in every variety of trade, we are lost in wonder at the generosity displayed, in reply to the simple presentation of the officers of the advantages to accrue to both parties, for these are benefits accruing to all. Have not our business men in Raleigh some items to add before the lists close to-morrow of donations to the Fair of 1878?

The Farmer and Mechanic.

This paper, under the admirable editorship of Capt. R A. Shotwell, assisted by a popular staff, has achieved a most enviable success. It has solved in the affirmative the oft asked question whether North Carolina will support a first class farmers journal within its own borders. With the next number the Farmer and Mechanic will begin its 3rd volume. The organ both of the Grange and the State Agricultural Department, the Farmer and Mechanic doubtless owes much of its unprecedented success to the cordial support of Commissioner Polk and Capt. Alexander, Master of the State Grange.

The Graded School.

All candidates for position of teacher in the Raleigh graded white school are requested to present themselves before the Examiner, and submit to a competition examination on Saturday, October 12, 1878. JONES' BAKING POWDER

FOR SALE BY ALL GROCERS.

We ask all cooks, housewives, and the general public to give our goods an impartial trial. This Powder is carefully prepared upon scientific principles—the result of long and careful experiments and tests in chemistry. In its proportions and compounding it is the perfection of science, and is recommended by the leading Chemists in the United States whose certificates we have. It is perfectly pure and wholesome, and saves time, labor and money of every consumer. It stands Unrivaled; we challenge the world to produce better pure and more wholesome goods.

REASONS WHY IT SHOULD BE USED:

A BARREL OF FLOUR MAKES ABOUT 40 POUNDS MORE BREAD
IT NEVER FAILS AND ALWAYS PLEASES THE CONSUMER.
IT IS THE PERFECTION OF SCIENCE IN COOKERY.
IT IS A COMFORT FOR EVERY HOME.
YOUR BREAD WILL NEVER BE SOUR.
YOUR FOOD WILL BE THE BEST.
YOUR BREAD WILL BE WHITER AND RICHER.
YOUR HEALTH WILL BE PRESERVED BY ITS PURITY.

WARRANTED TO KEEP IN ANY CLIMATE

We do most earnestly caution consumers of Baking Powder against using adulterate and cheap goods, as no good and pure Baking Powder can be sold for less than ours.

An analysis of the cheap clap-trap spurious adulterated goods called Baking Powder would startle the community of consumers beyond precedence, as most of it is not fit for use, and would not be allowed to be sold were the laws enforced; yet goods of this kind are manufactured and sold by dealers because offered cheap by unscrupulous manufacturers. We caution those who value health, and appreciate good, wholesome living to buy only Pure Baking Powder. Jones' Unrivaled is such. It is an established article throughout the West and South, and is recommended by the highest authority for Purity and Strength.

All first-class storekeepers have it because it is pure and can be relied upon, and is a credit to their stock.

Merchants are authorized to warrant our goods where directions are followed

Our statements are correct and are backed by chemists of note and experience, and we hold ourselves ready to prove our assertions.

We are offering goods of undoubted purity, which are in their compounding, as we claim "UNRIVALED."
